

Fleet Risk Survey (MORR Review)

• What is the Fleet Risk Survey?

Linking together two key areas of safety management (road and occupational safety) RoSPA is able to provide a unique form of consultancy to assist with occupational road risk. Many employees spend a great deal of time behind the wheel, so effectively controlling the risks to which they are exposed is essential. RoSPA has taken the lead in developing an approach to managing risks on the road.

The review will focus on:

- the current performance of your fleet
- the creation of an appropriate vehicle safety policy
- resource requirement to implement the systems
- planning, setting, measuring and monitoring standards
- appropriate interventions to reduce risk and improve effectiveness
- vehicle selection and use
- operating efficiency
- accident and incident reporting procedures.

• Objectives

This new consultancy service from RoSPA is designed to analyse accident costs within organisations and to generate effective recommendations. The main aims of the service are to:

- identify the size of accident costs within the organisation
- identify and set the standard
- measure company performance against the standard and set recommendations.

• Benefits to you

The RoSPA report will provide you with a step-by-step approach to an effective and lasting programme for the management of occupational road risk within your organisation. The service will also identify key procedures that, once implemented, should help to lower insurance costs. The initial status review is based on the Health and Safety Executive's '5 Steps Approach' to health and safety management

Course fees

As an Allianz Insurance plc policyholder you can enjoy an exclusive discounted rate of the following:

£895.00 per review

Please note: As part of the survey Allianz will pass your claims data to RoSPA. The data will be used in the risk analysis and referred to in the report. RoSPA will use your claims data for these purposes only.

Duration

Approximately 3-4 days
(Days 1 and 2 on site, days 3 and 4 report writing)

Location

The review will be undertaken at customer's premises.
