

VUE

The vehicle CCTV company

Who VUE are

VUE have over 15 years experience in the vehicle technology market providing bespoke vehicle CCTV and telematics solutions.

Considered as one of the UK's market leaders in the industry, VUE provide systems and dedicated support to all of their clients including the Emergency Services and the Vehicle & Operator Services Agency (VOSA) and a key provider to both the Commercial Vehicle industry and Fleet Operators.

VUE's products are specifically designed and developed to support fleet operators with their fleet risk management programmes and strategies. Implementing one of VUE's solutions will assist fleets with reducing the frequency of avoidable accidents and their associated costs (including hidden costs) and through proactive management will improve driver behaviour, therefore the likelihood of an accident, and reducing running costs. VUE's systems are designed to combat the growing problem of fraudulent insurance claims, inflated PI claims and staged accidents in addition to providing drivers with the vital tools required to drive safely and compliantly.

VUE's product range

VUE offer a range of bespoke CCTV and tracking solutions to suit your company's fleet/s requirements.

• Video Data Recorder (VDR) System

- SD card, Hard-drive or 3G
- Up to 8 cameras
- Records time, date, GPS location, G-force and vehicle speed
- Produces incident reports
- Records pre-incident footage
- Records after the vehicle ignition is switched off capturing essential post incident footage
- Hidden tamper proof unit

VUE's systems are fully expandable to accommodate up to 8 cameras to suit every user's specific requirements. Cameras can be positioned anywhere on the vehicle. Internally for driver, passenger and load monitoring and externally for close proximity manoeuvres and eliminating vehicle blind-spots to protect vulnerable road users.

• VUETrak

- Live monitoring of vehicles
- Harsh acceleration and braking
- Speed reports
- Engine idling
- Fuel consumption
- Poor driving behaviour
- Journey efficiency

VUETrak is a comprehensive tracking and telematics system providing fleet operators with a complete fleet and risk management solution. VUETrak can be combined with the CCTV solutions and accessed from any PC or smart phone with internet connection.
