TRACKER Network (UK) Ltd

TRACKER is the UK's most successful stolen vehicle recovery system.

The hidden costs and effects of theft, such as disruption, missed appointments and the inconvenience to you, go way beyond the claims settlement cheque and cannot be refunded. We have partnered with TRACKER Network (UK) Ltd, to offer a range of discounted products which will help minimise your exposure to fleet risk both operationally and financially.

Proven Technology

All TRACKER stolen vehicle recovery products use VHF radio wave technology.

The unit in the stolen vehicle emits a silent, uniquely coded signal that can be located in underground car parks, garages, buildings, or even steel containers. A nationwide network of transmitters then picks up the activated signal and relays it to police patrol cars and helicopters fitted with tracking computers to track and locate the stolen vehicle, normally within a few hours.

A range of systems are available and in addition to the VHF radio wave technology fitted across the entire range, some of the systems include GPS to provide dual tracking technology to maximise the chances of a successful recovery.

Solutions available to Allianz Policyholders:

As an Allianz Policyholder, you can enjoy a **£100 discount** on the unit cost (subscription costs as standard).

- **TRACKER Monitor** – this product has a sophisticated movement sensor, which notifies TRACKER if the vehicle is illegally moved. When TRACKER is alerted to an illegal movement the owner is contacted to confirm whether the vehicle has been stolen.

Monitor Unit – £361 Allianz price **£261**

- **TRACKER Locate** – like Monitor, this product incorporates a sophisticated movement sensor which notifies TRACKER if the vehicle is illegally moved. The product also provides jamming counter measures, in response to the growing problem of thieves 'jamming' tracking devices. The unit incorporates two means of communicating the location using VHF/GSM technology and three means of locating a stolen vehicle using VHF/GSM/GPS technology. Locate Unit – £462 Allianz price **£362**
