In business there are risks. It's a part of life.

Taking a common sense approach can solve most day-to-day risks. In many other areas your clients look to you for guidance and solutions to help reduce their exposures. Risk Director is the direct result of Allianz's understanding of risk management. It's a FREE online risk management service providing practical risk management for Allianz policyholders.

Use Risk Director to keep your clients fully informed.

Lets face it – risk management can be an unfamiliar and confusing area for most people. Understanding legal requirements and remaining up-to-date with any pending changes cannot only be difficult and unclear, but very time consuming. In the modern business environment, ignoring legal obligations and requirements can have serious consequences.

Allianz makes it easy by having a suite of risk management information at your fingertips.

Some have it, some don't. Service – it's a key difference!

It's one of the reasons your clients look to you for their insurance solutions. Risk Director is another way Allianz can support your competitive advantage by sharing our knowledge, providing additional support and developing long-term relationships with your clients. It's another reason to keep them coming back to you.

Know More, Achieve More

Allianz has over 100 years experience of providing insurance in the UK, so we understand the business of risk. After all, it is our business. Risk Director is a direct result of our combined market experience and knowledge, laid out in a simple online format. This enables you to provide effective risk management guidance and information at the click of a button. It couldn't be easier.

Risk Director has a comprehensive suite of risk management resources including:

- **Health & Safety toolkit** – a do-it-yourself, online, step-by-step guide to creating a complete health and safety management system, or review what is currently in place
- **Risk Control notes** – a range of over 120 downloadable, topic related technical guidance notes, many with supporting checklists. These cover essential business subjects such as health and safety, fire, security, business continuity and environmental matters
- **Risk Management guides** – ten trade and risk specific, comprehensive risk management guides developed especially for small and medium sized businesses
- **Infosite guide** – a convenient downloadable guide, containing an extensive range of websites that can be useful in managing risk.

How do you get started?
