

# Scholarship Programme

The Scholarship Programme is made up of two insurance line focused programmes; Commercial and Personal Lines. This year, we are launching them together, presenting scholars with even more opportunities to network with peers from across the industry. Depending on your role within your brokerage, you should choose the programme that aligns with the class of business you trade in. To help us progress your application towards the right programme, you will be asked in your application form to specify which programme you are applying for (this may well be both). If you have any hesitancy about which one is right for you, please contact your Allianz representative or email [scholarship@allianz.co.uk](mailto:scholarship@allianz.co.uk)

## Timeline

### M92 Insurance Business and Finance and M05 Insurance Law changes

The P92 and P05 units will both be available as mixed assessment units (M92 and M05) by the time you are ready to study these and it is this assessment method that Allianz requires you to complete as part of the programme.

The mixed assessment will include one coursework component which must be submitted online within the first 6 months of enrolment of the module. (We have left plenty of time between your final Allianz workshop and coursework deadline to ensure you can apply anything learned to your coursework).

The second component consists of a multiple choice exam delivered online. You have 18 months from enrolment of the modules to sit the exam however, we strongly advise you to sit the exam as soon as possible after your final workshop. This will also ensure you complete all your modules within the 18 month timescale of the scholarship programme.
