

What our scholars have to say...

"The Allianz Scholarship programme is great way of supporting brokers to achieve their Diploma. The support and training I have received so far has been first class and I couldn't have asked for anymore. The programme not only provides you with the knowledge needed to be successful in the studying for the Diploma but also gives you the opportunity to share knowledge and studying techniques with your peers and create healthy competition between the group. Allianz are one step ahead of its competitors in offering this opportunity and I'm sure others will look to offer similar schemes in the future.

Not only will the scholars gain the Diploma at the end of the 18 months, they would have gained valuable industry knowledge and the confidence to apply this in their day to day roles. The programme will hopefully inspire other colleagues to want to achieve professional qualifications which can only be a positive thing for the industry as a whole".

Allianz Scholar 2012

"The Scholarship programme is a positive statement being made by Allianz demonstrating that they are interested in the professionalism of the brokers that they deal with in the market.

Allianz have demonstrated a joined up business approach of the Broker/Insurer demonstrating the need for professionalism in the Insurance Market.

The programme offers a fast track qualification of the CII diploma, it helps the Scholar to gain knowledge and experience from both Insurer and the Broker side of the business".

Allianz Sponsor 2012

"From the outset I was impressed by the offer provided by Allianz to assist Broker's with their development.

The programme is well organised and spaced out allowing sufficient time for the scholar to complete necessary revision and work, without being in the way of their day to day work. The revision days have been extremely successful in my own learning, in that I have come away with a feeling that I have gained from the sessions, and not felt like my time could have been better used elsewhere.

From my experiences so far I would strongly recommend the Allianz Scholarship Programme to anyone wishing to develop and progress within the Insurance industry. The learning, advice, assistance and networking opportunities in place will provide the scholar with a key opportunity to grow and gain a greater learning experience and ideally results. I feel privileged to have been given this opportunity by Allianz".

Allianz Scholar 2012

"Other than time out of the office and the exam fees, Allianz picks up the tab for everything else and there is nothing to organise or sort out. It really is fantastic value and I am delighted to have been selected for the programme.

Besides the technical learning, I have also enjoyed meeting new people and it has been great to get a chance to talk to others who are at a similar stage in their career and hear about the firms they work for.

Allianz has invested a lot of time, money and effort into this programme and certainly my own experience is very positive. It is always easier to learn in a structured group environment and this is exactly what the scholarship programme creates".
